

Utilaire Range

The Utilaire Range - quality & durability with value combined.

Designed to provide our clients with a competitively priced range of bench support systems

We believe that the functionality and durability of S+B laboratory furniture is second to none. Utilaire is designed and built for longevity and helps create a modern, clean working and learning environment suitable for a wide cross section of research, process and educational disciplines.

Utilaire is a range of bench support systems suitable for wide ranging laboratory applications. Each system within the range has been value engineered to provide highly competitive costing without compromising the application for which it is intended.

S+B is a leading and long established specialist in the design, manufacture and installation of good quality laboratory furniture serving clients in the UK and many overseas markets.

C Frame

The S+B Utilaire Range

C Frame

The Utilaire range incorporates a variety of different leg frame systems to ensure that there is a product which can meet and fully satisfy the very diverse scientific and laboratory applications found in R&D, Education, Healthcare, Food & Beverage, Utilities and industry generally.

All Utilaire legs frames are fully welded and are finished in an attractive, chemically resistant, easy to clean powder coating which provides excellent resistance to knocks and wearing.

Cantilever frames can be supplied with push under storage cabinetry and Table frames, C Frames, H frames and T frames can also be supplied with suspended storage cabinetry. The hollow section tube varies in size and gauge depending on load bearing requirements.

All frames incorporate adjustable height feet to counter uneven floor surfaces. Where there is not a requirement to fix to the floor, to a wall or to connect to services, C frames and H frames can also be supplied with lockable castors for ease of movement.

A comprehensive range of leg frame systems providing a highly cost effective and functional laboratory environment.

T Frame

Along with Exemplaire, Utilaire provides our clients with a wide range of alternatives

Cantilever Frame

A range of heights are available to suit all applications, 650mm, 700mm and 750mm being the most widely used for sitting (desk) height worktops with 850, 900 and 950 being the most widely used for standing height worktops.

Legs can be arranged to support perimeter benching of differing lengths and depths and fixed back to back to support island and peninsula benches of differing widths.

The Utilaire Range can be supplied with or without storage cabinetry, which can be added at a later date when applications change or when budget allows.

Push under and suspended storage cabinets include cupboards, drawer packs, sink units, tray units, waste management units, acid and solvent storage/recovery units.

Choice and diversity

Laboratory worktop choice is wide ranging and S+B will offer advice based on best value for particular applications. Examples are post formed plastic laminate, solid grade laminate (such as Trespa), Hardwood, Corian, Polylab, Staron, Stainless Steel, Ceramic, Toughened Glass, Polypropylene and Cast Epoxy Resin.

Fume cupboards – S+B manufacture and install a wide range of standard units independently tested to BSEN 14175. Please visit our web site for details or contact us for information on our Ecoline bench top fume cupboards, Ecoline 2 Walk In and Step In units and Mobiline recirculatory filtration fume cupboards.

As one of the very few UK laboratory furniture specialists whom also manufacture fume cupboards, S+B can provide our clients with a fully integrated design, the economies of scale and the interface management advantages of a single point of contact.

Other leg frame systems from our state of the art Exemplaire range includes the Column System (cantilever) and C Frame System, which with retro fit front legs can be adapted to H Frame and our modular part system. We can also supply a variety of alternative leg frame bench support systems from our Utilaire range.

H Frame

laboratory engineering

Ecoline Fume Cupboards

A range of new generation high performance, low energy fume cupboards designed to be supplied as stand alone or for clients who really want a fully integrated laboratory design.
